

Tulsa Firefighters strives to create innovative approaches to meet the needs of our health plan membership and stay ahead of the ever-changing challenges of creating convenient and affordable access to health care.

Many of our health care partners are centered-around a culture of quality, service, transparency, and efficiency. Considering Provider Partners will allow you to make the most out of your health care dollars.

High Deductible Health Plan Benefits of Utilizing Provider Partners Surgical Management Program

Significant Out-of-Pocket Expense Savings

Lower cost for services rendered for specific covered imaging, diagnostic, and surgical procedures results in lower out-of-pocket cost for you. **After Deductible is met, out-of-pocket expenses will be waived.**

Key Surgery Centers across the Nation

Access to specific centers in your area; please call (800) 749-1422 for assistance with a Provider Partners Surgical Management facility, or visit us online at www.tulsafire.providerpartners.com

Access to Quality Providers

Surgeries performed in a traditional hospital setting are ten times more likely to result in an infection and outcomes have been documented to be less favorable. Most free-standing surgery centers and hospitals provide an excellent experience that welcomes patients into a caring and warm environment.

Concierge Services

HealthCare Solutions Group (HSG) can assist you with determining if your procedure is offered by a Provider Partners facility. We can also assist you with locating a facility in your area. We encourage you to contact HSG at (800) 749-1422 before scheduling any surgical procedure.
