

2019 SCL Premier Plus Formulary

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the phone number printed on your member ID card.

KEY

Brand-name drugs are listed in CAPITAL letters. Generic drugs are listed in lower case letters.

T1: indicates Tier 1 (lower cost generics and some brand-name products)

T2: indicates Tier 2 (mid-range cost preferred brand-name products)

T3: indicates Tier 3 (higher cost non-preferred products – ask your doctor if a Tier 1 or Tier 2 product could work for you)

E: indicates an EXCLUDED product

3P: indicates Tier 3 Preferred

SP: indicates Specialty

For the member: Generic medications contain the same active ingredients as their corresponding brand-name medications, although they may look different in color or shape. They have been FDA-approved under strict standards. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate.
