

## **Provider Partners Surgical Management Program**

### **NEW MOBILE APP**

You may have recently received an email regarding our Provider Partners surgical management program. The Tulsa Firefighters Health & Welfare Trust would like to take this opportunity to explain that these emails are being provided to notify our membership of the new mobile APP that is now available, and to remind our membership of this valuable benefit. This is not a new benefit, but simply a roll-out of the new mobile APP.

Members that are participating in the Traditional PPO Plan Design will have a \$300 Copay for covered surgical procedures and a \$50 Copay for covered high-tech imaging services.

Members that are participating in the High Deductible Health Plan (HDHP) can take advantage of the contracted pricing at these facilities. In accordance with HDHP regulations, Deductible & Out-of-Pocket Expenses will apply to covered services at these facilities.

Many of our health care partners are centered-around a culture of quality, service, transparency, and efficiency. Considering one of these facilities will help you make the most out of your health care dollars.

Please don't hesitate to contact HealthCare Solutions Group at 1-800-749-1422 for any questions you may have regarding your Provider Partners.

Respectfully,

Tulsa Firefighters Health & Welfare Trust Benefits Team
