

ATTENTION

Health Savings Account (HSA) Participants

The **Internal Revenue Service (IRS)** requires HSA participants to pay for their **non-preventative health services** in order to retain the tax deferred benefit on the funds in their Health Savings Account.

It is your responsibility to notify the clinic of your HSA plan. The office visit fee for HSA participants covers the office visit, dispensed medications, in-clinic testing, and Standard lab work performed in the CareATC clinic.

\$60 office visit fee for non-preventive (sick) and chronic care visits

CareATC accepts credit cards for these office visit fees, but is unable to accept cash or checks.
